INTERNSHIPS/WORK EXPERIENCE

Web Developer Intern, **Boston Consulting Group**   August 2022 – September 2022
Management consulting firm that partners with leaders and societies in business to tackle their important challenges
- Developed and designed a responsive FAQ website in React JS for 3L+ teachers in Rajasthan.
- The website consists of an exhaustive, topic-wise list of questions frequently asked by teachers based on various aspects of the program.
- Created an automated mechanism to ensure easy FAQ website updates post deployment.

Web Developer Intern, **Abhyaz**   June 2022 – August 2022
E-Learning platform providing courses and software across broad engineering technologies
- Worked on the development of **CNCTrain Website** by creating layouts and designs.
  - The products of the company were available to a larger audience with a better representation.
- Led a team consisting of interns from domains of web development, software engineering and design.
  - Enhanced my management and communicational skills.

POSITIONS OF RESPONSIBILITY

- **Application Development Team Lead,** Google Developer Students Club
  - Lead a team of application developers in different fields such as Flutter, Android Native and React Native.
  - Discuss and manage project work with the team.
- **Outreach Team Member,** Google Developer Students Club
  - Reach out to students to inform about the various tech related sessions in different domains.
  - Received recognition and awards as the "**Top performer"** for exhibiting a rewarding performance as an active and responsive team contributor.

VOLUNTEER

- Participated in "Design A Game" activity, by **Team Everest NGO**
  - Virtually interned and created 20 educational games for children of classes 3rd to 8th.
  - Helped children to communicate with each other over a phone call.
  - Got Letter of Recommendation from Team Everest.
